

BEST ROADWAYS LIMITED 40 YEARS OF EXCELLENCE

OIL & GAS / EPC / INFRASTRUCTURE • FTL LOGISTICS PROPOSAL

Your Projects Build India's Energy Backbone, GS Caltex India. We Keep Them Fed.

GS Caltex India builds what India's energy economy runs on — refinery units, terminals, tank farms, pipelines and fire-protection systems, fed by a continuous stream of steel, piping, fabricated structures and equipment. That stream is exactly what Best Roadways' owned-first FTL is built to carry.

800+

OWNED TRUCKS

65+

01

Site-Feed Project FTL

Steel plates, piping spools, fabricated structures, valves and equipment from vendors and yards to your project sites across India — placed against your construction schedule.

02

Multi-Site, One Partner

Refinery, terminal and pipeline sites running in parallel across states; our 65+ branches give you one accountable carrier and one control tower.

03

Vendor-Pickup Discipline

Milk-run pickups across your fabricator and supplier base, consolidated and delivered site-wise — less coordination load on your project managers.

SCOPE OF SERVICES

- Project cargo FTL — steel, piping, structures, equipment (6W to 22W)
- Vendor / yard pickups to project sites pan-India
- Time-bound deliveries against construction milestones
- Bonded & general warehousing at JNPT for imported equipment
- Site consumables and shutdown-material movements

WHY BEST ROADWAYS

- Owned-first fleet of 800+ trucks — placement that holds through project peaks
- 65+ branches for real ground presence on every site
- 40 years serving India's industrial and energy supply chains
- Single accountability from indent to site POD

LD clocks don't wait for trucks: on EPC sites, a late consignment costs crane hire, idle crews and liquidated-damages exposure. An owned-first carrier is schedule insurance your project managers will feel on day one.

PROVEN IN YOUR SECTOR

Best Roadways moves freight for Indian Oil (Panipat), GS Caltex, Sika, Fosroc and Metso — oil & gas and project-site cargo is our daily work.

Give us one project site to prove. Give us one lane. We'll prove it.

Prepared for Ruchir Desai at GS Caltex India — happy to walk through any of this on a short call.
